

## **Girls on the Run of NOVA Registration Info**

Our registration is not a first come first served process. Until registration closes, all participants (other than coaches' daughters) will be placed onto the team rosters under a 'lottery' status. This does not mean the team you registered for is oversubscribed or there is a waitlist for the team. Your team placement will be confirmed upon the conclusion of the open registration period.

Following the closure of registration, your registration status will change to 'Confirmed' and you will receive a confirmation email on or around the day after registration closes. In the rare occasion where the number of registrants exceeds the number of spaces available on a team, we will run a random automated lottery to determine which applicants will fill the spaces on that team.

Your credit card will be charged immediately upon the completion of the registration process. Please note we will issue a full refund to all participants who are not selected in the lottery process or registered for a team where the minimum number of participants is not met and the team site is canceled. Furthermore, because of the slight possibility for a team lottery, it must be noted that submitting an application during the open registration period does not guarantee a slot on a team.

There is a Late Registration period for sites that have not yet filled to the maximum number by the start of the season. For these sites, registration will remain open with a \$25 late registration fee.
